Post-Graduation Work Permit (valid through February 2029)

WORK EXPERIENCE

SOC Analyst (Cyber Range / Simulation)

Ottawa, ON

Algonquin College Cyber Range Lab

Jan - Aug 2025

- Triaged identity, endpoint, and network alerts using Microsoft Sentinel and Microsoft Defender XDR, and documented investigation findings
- Investigated MFA bypass attempts, brute force authentication activity, and suspicious sign-ins using Entra ID (Azure AD) logs and KQL
- Extracted indicators of compromise (IOCs) and mapped detections to MITRE ATT&CK techniques to support escalation decisions
- Built Microsoft Logic Apps SOAR playbooks to isolate compromised endpoints and disable accounts in simulated SOC workflows
- Reduced simulated MTTR by 40 percent through SIEM rule tuning and workflow automation.
- Produced structured incident reports aligned with ISO 27001 and NIST CSF standards following Tier 1 escalation runbooks

Cybersecurity Analyst x Capstone Project

Ottawa, ON

Algonquin College - Capstone Project (Team of 5)

Jan - Aug 2025

- Built a security monitoring lab using Wazuh and Splunk: deployed sensors and agents, tuned detection rules, and validated detections against simulated attack paths
- Memory forensics using Volatility: identified malicious processes and injection indicators supporting incident timelines
- Threat hunting using KQL and Kibana: investigated brute force activity, phishing scenarios, and lateral movement mapped to MITRE ATT&CK.
- Built a PKI secure transmission system: implemented TLS 1.3 with X.509 certificates and CRL distribution supporting secure document workflows

EDUCATION

Algonquin College

Ottawa, ON

Postgraduate Certificate, Cyber Security Analysis

2025

Postgraduate Certificate, Human-Centred Design

2024

Panjab University

Chandigarh, India

Bachelor of Computer Science

2023

SKILLS & CERTIFICATIONS

Skills: Microsoft Sentinel, Microsoft Defender XDR, Splunk, Wazuh, KQL, IOC extraction, Log correlation, MITRE ATT&CK mapping, Microsoft Azure, Entra ID (Azure AD), Defender for Endpoint, Alert triage, Phishing analysis, Escalation documentation, Wireshark, Nessus, Nmap, Linux, Windows Server, PowerShell, Python, ISO 27001, NIST CSF, PCI DSS

Certifications: CompTIA Security+ (SY0-701) | TryHackMe Top 10 percent Global Ranking | Police Record Check: CRJMC Level 2 (Available)
